DEAR SIR:

I beg to call your kind attention to my celebrated **Keppler's Long Island Celery**, the favorite green table sort, best keeper in existence.

This variety is thoroughly established by careful selection. It partakes of the best qualities of any variety. It is a sprout from the "Schuhmacher Celery," and is of a fine nutty flavor, being entirely free from any bitter taste.

It grows about one and one-half feet high; the stalks are very broad, thick and crisp; the width and thickness of these are distinctive features of this variety. It bleaches with but slight earthing up, and very quickly—in five or six days.

It is a splendid keeper.

Seeds grown by one of the best market gardeners on Long Island, N. Y.

The seed is put up in packets, price 25 cents; per oz., \$1.00; ¼ lbs., \$4.50. Cash with order.

Yours respectfully,

M. KEPPLER.

*per pound 10 Dollars.*
